Need to haul only a few livestock at a time? Then turn to Featherlite’s bumper pull Model 8107. Newly redesigned, the 8107 is an economical, compact trailer ideal for your farm or ranch that is built to last with Featherlite’s all-aluminum construction. Customize the trailer to your specific livestock with height options from 5’3” to 7’. Opt to add a dressing room to haul livestock and horses both, or add the “pen system” for smaller livestock.

**PRODUCT SPECIFICATIONS**

- Trailer width of 6’7” or 7’
- Lengths of 12’, 16’ or 20’
- Inside heights of 5’3”, 6’6” or 7’; Additional height customization available
- One full swing center gate with Featherlite’s redesigned heavy-duty and easy-to-use slam latch
- Full swing rear stock gate with lockable slider and extra large center post (Other options available)
- Top rail design and standard built-in plexiglass track allows for easy plexiglass installation
- Tandem axles (3500# on 12’ & 16’; 5200# on 20’)

## Bumper Pull Stock Trailer Model 8107

FEATURE	FUNCTION	BENEFIT
<b>All-Aluminum Construction</b>	Featherlites are made with an all-aluminum frame and skin.	With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow. Starting with 2017 models, Featherlite's stock trailers are built with sidewall extrusions that are thicker, allow for stronger welds and vertical tie ring integration and are more scratch resistant.
<b>Crossmembers</b>	4" crossmembers run every 12" under the trailer on 7' wide trailers with 3" cross members every 12" on 6'7" wide trailers.	Featherlites have a solid support system underneath the trailer for your heavy loads of livestock.
<b>Aluminum Floor</b>	Featherlite's skid resistant interlocking extruded aluminum floor is standard.	The aluminum floor is stronger & more durable to last longer through heavy use when hauling livestock.
<b>Aerodynamic Nose</b>	Featherlite bumper pulls feature standard aerodynamic noses.	Better aerodynamics during hauling creates a smoother tow.
<b>Center Gate</b>	Full swing center gate with slam latch is standard.	Aluminum slam latch on center gates allows gates to be shut quickly & easily for convenience and safety when you're loading livestock. Featherlite's new slam latch design is even stronger and easier to use for you and your livestock's safety.
<b>Rubber Dock Bumper</b>	Featherlite uses a full width, thick 4" rubber dock bumper on their stock trailers.	The larger rubber dock bumper better protects animals during the loading process.
