Featherlite can customize any unit to your exact specifications. Since 1973, when Featherlite launched the nation's first all-aluminum specialty trailer, it has been the industry leader in quality and innovation. You get a superior product that leads in reliability.

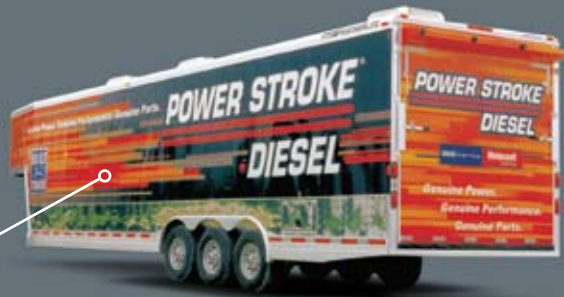

All our units are built in-house from the bottom up. This comprehensive manufacturing approach saves our customers time and money and allows us the ultimate control over product quality. Featherlites are available in all lengths in bumper pull, gooseneck and semi-trailer towing configurations. You get more with Featherlite!

High-impact graphics put your company face-to-face with potential clients and customers.

Companies trust Featherlite's product and service.

“ The whole marketing concept is based on our trailers. Just the presence of these Featherlite units generates a lot of excitement. ”

Don Schaeffer
Eldorado Cartridge Corporation/PMC

“ Featherlite is extremely customer focused. We sat down with their engineers and designers and they developed a unit that worked for us. ”

John Cunningham
National Events Marketing Manager
Black & Decker/DeWalt

Featherlite interiors know no bounds. Awnings expand your world.

How to get started

1. Bring your ideas to your local Featherlite dealer.

2. He or she will assist in determining the best approach and costs, getting plans drawn and monitoring the project from start to finish.

Featherlite can customize any trailer.

Visit your local Featherlite dealer today to learn more about designing and building a high impact, custom trailer to serve your business or personal needs.

Call 800.800.1230 for the dealer nearest you or visit our website at www.fthr.com.
