## Function

## Benefit

### All-Aluminum Construction

Featherlites are made with an all-aluminum frame and skin.

With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow.

### Uni-Body Design

All components of the Featherlite trailer from side posts to roof rails to roof bows to cross members are engineered into a uni-body design.

The uni-body design makes the trailer stronger and more durable for the long haul.

### Heavy Duty Drop Down Feed Doors

One square cornered drop down feed door in front of each horse on the streetside is standard. Curbside feed doors optional.

Featherlite's heavy duty square cornered drop down feed doors are unique to the Legend Edition. They feature a heavy duty frame, hinges and bars and that also maximize air-flow and light.

### .040 Aluminum & 'Wave' Side Panels

Exterior includes .040 aluminum sheets with 'wave' side panels at the bottom.

Thick .040 exterior sheets offer additional strength & durability. The sleek design of the 'wave' side panels dynamically enhances the trailer's exterior appearance.

### Slam Latch Dividers

Slant stall dividers with spring-loaded slam latch are standard.

Featherlite's patented spring-loaded slam latch dividers offer a quick and secure lock, with no need for hands near the fastening point. With the dividers properly secured, they won't swing about while traveling, potentially injuring your horse.

*\*10-year limited structural warranty on frame and superstructure. 3-year limited warranty on all other parts manufactured and installed by Featherlite. Some exclusions apply. See website or dealer for details. Trailer may be shown with options.*
