

**SILVERSPORT RT**  
BY WELLS CARGO

BY UNIVERSAL TRAILER

# Meet a trailer as detailed-orientated as you

*Welded, integrated roof structure*

*Best-in-class ramp door opening and width between wheel wells*

*Rear ramp door with covered, continuous hinge*

*Spread axles handle heavier loads*

**SILVERSPORT RT**  
by WELLS CARGO

# Nothing but the best

*You love your car. The best engine, the best tires, the best brakes.*

*Well now there's an aluminum race trailer that lives up to your exacting standards: the SilverSport RT by Wells Cargo. You'll look good all the way to the track and know that your car and your other equipment will arrive safe and sound.*

## PRODUCT FEATURES

### **Exclusive Class-Leading Aluminum Frame Design**

You get maximum strength and durability, and more room to store your gear. Plus, it's 30% lighter than steel.

### **Integrated Roof Design for Maximum Strength**

Your trailer is squarer and stronger from the start, and will stay that way regardless of what the road might throw at it.

### **Seamless, Screwless Aluminum Roof**

Since there's no sealant, there's no need for maintenance either!

### **Corrosion-Resistant Aluminum Construction**

You wouldn't let your car rust; your trailer shouldn't either. SilverSport's all-aluminum construction will look good as new for as long as you own your trailer.

### **Best-In-Class Ramp Door Opening**

The larger rear door opening allows more space between your car and the side of the trailer saving time while loading and unloading.

### **USA-Manufactured LED Lighting**

USA-manufactured LED lights are brighter than imported LED lights, creating greater visibility and better light quality. These lights come with a lifetime warranty.

# THINK WELLS CARGO

## FOR ALL YOUR HAULING NEEDS

*Many people say that all enclosed cargo trailers look pretty much alike. We consider that a compliment since it was Wells Cargo who pioneered the entire industry when our first cargo trailer rolled off the production line back in 1954.*

*Today, Wells Cargo continues to set the standard for quality engineering, manufacturing, and design. With a line of over 200 different trailer models for industrial, commercial, and recreational applications, there is sure to be a model to fit your specific needs and budget.*
