Bumper Pull Horse Trailer Model 9409

FEATURE

FUNCTION

BENEFIT

All-Aluminum Construction

Featherlites are made with an all-aluminum frame and skin.

With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow.

Uni-Body Design

All components of the Featherlite trailer from side posts to roof rails to roof bows to cross members are engineered into a uni-body design.

The uni-body design makes the trailer stronger and more durable for the long haul. It also gives you the smoothest pull possible.

Light 'Flo' Drop Down Feed Doors

One Light 'Flo' drop down feed door in front of each horse is standard.

Featherlite's Light 'Flo' drop down feed doors allow up to 90% more airflow and light into the horse area, helping keep horses more calm and relaxed while loading and traveling. With their lowered handle, they are also easier to operate.

3/4" Rubber Floor Mats

3/4" rubber floor mats are standard in the horse area.

The thickness of Featherlite's floor mats give horses the greatest amount of comfort and stability during travel, reducing stress and potential injury to the horse.

Slam Latch Dividers

Slant stall dividers with spring-loaded slam latch are standard.

Featherlite's patented spring-loaded slam latch dividers offer a quick and secure lock, with no need for hands near the fastening point. With the dividers properly secured, they won't swing about while traveling, potentially injuring your horse.

For full array of floorplans, visit www.fthr.com.

*10-year limited structural warranty on frame and superstructure. 1-year limited warranty on all other parts manufactured and installed by Featherlite. Applies to 2013 and newer aluminum, non-commercial trailers sold on or after February 1, 2012. Some exclusions apply. Trailer may be shown with options, including wave side panels, black side sheets and aluminum wheels.
