HIGHMARK

THE PACE AMERICAN TRAILERS ADVANTAGE

BUILT TO A HIGHER STANDARD

Pace American offers a wide selection of trailers with unbeatable features and value. Whether you need a specially-customized trailer for your business or a no-frills trailer for everyday towing, Pace American has the perfect solution.

1 TUBE MAIN RAILS

Lighter than I-Beam competitors while providing more torsional rigidity. Our trailers haul more and last longer.

2 FULLY WELDED WHEELBOXES

Protects your valuables from the elements by tying the wheelboxes to the dust-proof walls. This prevents dust and debris from blanketing your cargo.

3 REINFORCED PLATE

7 ga steel bentline reinforces the tongue assembly to the main rail. This distributes the forces over a wider area and picks up the full strength of tube tongue members.

4 DUST WALL DESIGN

Featured on 8.5' models, it prevents water, dust, and debris from entering the interior and inner wall cavity while adding strength as a structural component. All other models are sealed by the wall sitting on the frame rail.

5 ELECTRIC BRAKES

When it comes to safety, we will never cut corners. Gel-coat fittings are used on all brake connections. All tandem and triple axle models have brakes on all axles.

6 HEAVY DUTY HINGES

All ramp doors are standard with heavy duty hinges, grease zerks and a solid 3/4" steel rod for added strength.

WARRANTY

3-Year Frame and Component Overall Protection

1-Year Tire Hazard and Abuse Protection

5-Year Standard Tire Warranty

5-Year Axle and Suspension Warranty

WHEEL and TIRE STANDARDS

3,500 lb. axle = 15" Wheel and Radial Tire

5,000 lb. axle = 15" Wheel and Radial Tire

6,000 lb. axle = 16" Wheel and Radial Tire

7,000 lb. axle = 16" Wheel and Radial Tire

8,000 lb. axle = 17.5" Wheel and Radial Tire
